## Key Skills

Trainable

Time Management

Design

Responsibility

Adaptability

Problem Solving

Patience

Hardworking

- Applied sealants and insulation to sheet metal surfaces to prevent leaks and improve energy efficiency

## Education

### Diploma in General

August 2009 - May 2013

Lincoln-Way Central High-School, New Lenox, Illinois

### HTML, CSS, JavaScript Certificates

June 2024 - Present

Front-end Simplified, Online

- Completed coursework in web development best practices, including accessibility standards, search engine optimization, and performance optimization techniques. Developed practical skills in creating interactive and intuitive user interfaces through hands-on projects and real-world case studies.
- Engaged in continuous learning and professional development by staying up-to-date with industry trends, attending workshops, and completing online courses in advanced front-end technologies. Proactively sought opportunities to enhance my skills in areas such as responsive design, animation, and frontend testing.
- Successfully completed a capstone project that showcased my expertise in front-end development, demonstrating the ability to apply best practices in designing and implementing user-centric web solutions. Received recognition for creativity, problem-solving skills, and attention to detail in delivering high-quality front-end solutions.
